

Washington State Immunization Information System
ENHANCEMENTS & BUG FIXES
Release Notes for Versions 5.14.2 through 5.14.2.3– May 9, 2014

	AREA OF CHANGE	DESCRIPTION
1	IWEB CORE – Vaccination View/Add – Contraindication	Several vaccine types that were missing any contraindications listed in a drop down menu have been fixed. <ul style="list-style-type: none"> ➤ Rotavirus, monovalent (RV1) ➤ HPV, bivalent ➤ Japanese Encephalitis – IM
2	REPORT – Report Module – Patient Detail	The Lot Number drop-down section on the Patient Detail report is now fixed.
3	REPORT – State Reports and Patient Record Report	<ol style="list-style-type: none"> 1) The chronological order of the vaccines on the patient reports listed under the State Reports and the Patient Record Reports has now been corrected. 2) The Immunization Detail Record Report is now fixed and will no longer round a 6 year old record up to age 7.
4	REPORTS – STATE REPORTS – Washington State Vaccine Administered report	<p>NEW FUNCTIONALITY: The Washington State Vaccine Administered Report will be accessible from several different locations.</p> <ol style="list-style-type: none"> 1. State Reports – Washington State Vaccine Administered Report 2. Lot Number Manager – Doses Administered 3. Create/View Order – Create Order – Doses Administered button <p>Your LHJ's will inform you when you are to change to online reporting. If you have questions about this, contact your LHJ or the DOH Vaccine Management Unit.</p>
5	REPORTS – STATE REPORTS – Washington State Vaccine Administered report	The shading for Hepatitis B Adult and Hepatitis A Adult has been corrected; it will now show shading up through the 13-18 years old column.
6	SETTINGS – Personal Settings	<p>NEW Section - User Contact Information: You will be able to update your address, phone number and email address. Once updated here, your WAIS User Account will also be updated with it. Entry of users' <u>workplace</u> address, phone and email addresses in this section are preferred.</p>
7	System Administration - User Maintenance	<p>Issues with updating and creating a new user were fixed; searching will now result in a list of users at your organization only. Adding and updating user accounts is working better and still has some bugs being addressed.</p> <p>Note: When creating a new user – Facility Client, the facility field will be blank, no facilities listed. Once you try to save, you will get an error message, but note the facility field now has facilities. Select one and save the entry again.</p>
